solutions

IDT Access™

The Physical Access Control terminal for those who are looking for a "Fast & Accurate" identification / Verification process.

The IDT Access™ incorporates precision Multi Spectral Imaging Fingerprint Technology into an ergonomic embedded peripheral that delivers unparalleled performance, reliability and convenience. Available in a modular manner, the IDT Access™ provides a price sensitive solution for small to medium access control deployments.

Whether looking for a Verification or Identification process, this unique PAC terminal and integrated Smart Card or Proximity reader, is the perfect solution.

IDTAccess™ Technical specifications

IDT Access™

The IDT Access™ operates as a Stand Alone PAC or as part of a networked Access control solution, allowing for complete modularity and interoperability between all IdentityTech and third party software and hardware using our IDT SDK.

The IDT Access™ is offered in a rugged, elegant design, with the industry's required interfaces, enhanced security and convenience.

Internal / External processing options using the IdentityTech Octopus™ controller.

- Full stand - alone capabilities
- Internal SQLite DB
- Multi Factor Authentication
- Identification and Verification
- Robust design
- 1 : 10000 expandable to 1:50000 users.
- 1:1 100000 standard expandable
- Server based authentication
- Internal log file - 500,000 events
- Easy installation kit
- TCP / IP, RS-232 / RS-485
- Request Exit button interface
- Door status input
- Break Glass (for fire regulations)
- 3 power sources:
Power Supply, POE, Battery
- On board 2 relay unit
- Operating temperature: 0 - 60°C
- Integrated smart cards:
iCLASS, MiFare, Proximity
- Easy integration into third party hardware and software
- Critical information is encrypted
